The NeoClassical theory posits that an organization is the combination of both the formal and informal forms of organization, which is ignored by the classical organizational theory. The informal structure of the organization formed due to the social interactions between the workers affects and gets affected by the formal structure of the organization. Usually, the conflicts between the

Pros and Cons of the Neoclassical Theory of Management

The neoclassical theory of management took the concepts of the classical theory and added social science. Rather than view workers as automatons whose performance rises in response to better pay, neoclassical organization theory says the personal, emotional and social aspects of work are stronger motivators.
