9 children's books about the planets and solar system

One drawback to this book is that it still lists Pluto as one of the nine planets. This is outdated information because Pluto was downgraded to dwarf planet status in 2006, leaving us with only eight official planets in our solar system. The book discusses how the sun is at the center of our solar system, and the planets orbit around the sun. Most of the planets also have one or more moons that orbit around them. The book also talks about asteroids, comets, and meteoroids.
